

i-line® system 2

A contemporary “touchy-feely” glass sign system incorporating surface treated optically clear glass with stainless steel and anodised aluminium Stand-off components.

From small room plates to large wall directories from interactive monitors to glass fronted ‘vertico’ display cabinets and giant wall murals.

Endless opportunities exist for providing dynamic and unique sign concepts making i-line system 2 a striking alternative to more conventional sign products.

glass fronted monitors within secure stainless steel surrounds

floor level directory with glass, stainless steel and anodised aluminium Stand-off locators

glass and Stand-off wall and desk signs in many configurations

glass fronted ‘vertico’ display cabinets with unique vertical opening mechanism

glass fronted murals for interior and exterior feature walls

entrance directory with glass, stainless steel and Stand-off rod support system
